ABOUT ME

As a second-year Computer Science student passionate about software development, I am eager to leverage my skills in UI/UX design and front-end development, particularly with React, to contribute effectively in a software company setting. With a strong foundation in programming and a keen eye for user-centric design, I am committed to continuously expanding my knowledge and capabilities in the field. I am seeking an internship opportunity where I can apply my skills, learn from experienced professionals, and make meaningful contributions to innovative projects.

UNIVERSITY PROJECTS

Software Development Group Project

September 2023 - Present

- InSync is a customer support application powered by AI that streamlines the support process for banks. The project aims to help banks overcome the challenges of providing efficient customer service. The proposed voice-based system is designed to enhance customer service by offering instant responses, eliminating the need for customers to wait on hold. This solution drastically improves response times, making call handling more efficient.
- Technology Used: React native, JavaScript, Python, MySQL

Travel Booking Site

September 2023

- As part of first-year web design group coursework project, collaborate as a team to create a professional web page for a travel agency. Our aim is to deliver a high-quality end product that meets the requirements of assignment while showcasing skills and creativity.
- Technology Used: html, CSS , JavaScript

University Grading Sytem.

2023

- Technology Used: java, javafx

SKILLS

Technical Skills

- Web Design
(HTML , CSS , JavaScript)
- Front End Coding
(React , React Native)
- Prototyping
(Figma / Axure RP)
- Java
- Python
- SQL

Personal Skills

- Well Experienced Organiser
- Potential of Working as A
Team Member or Individually
as Necessary

EXTRACURRICULAR ACTIVITIES

- Former Batch rep at IIT (2023)
- Former Treasurer at Nalanda
College Communication Unit
2018/2019
- Former Sub Editor of
"Nalanda"- Nalanda College
School Magazine

EDUCATION

Bsc (Hons) Computer Science

IIT affiliated with University of Westminster (2023 - 2027)

- The following is a list of modules which are currently being taken and/or modules that have been completed but have pending results:
 - Software Development Group Project
 - Database Systems
 - Object Oriented Programming
 - Advanced Client side Development
 - Client-Server Architecture
 - HCI and User Experience
- Following are the finalized results of the modules that have been completed in Frist-year:
 - Software Development I
 - Mathematics for Computing
 - Trends in Computer Science
 - Computer Systems Fundamentals
 - Software Development II
 - Web Design and Development

Diploma in English

Britishway English Academy (2022)

G.C.E. (Advance Level) Examination (2019)

G.C.E. (Ordinary Level) Examination (2016)

Nalanda College, Colombo 10.
